MESSRS. FAVOR, RUHL & Co.:

DEAR SIR: I have been testing the sample of paper left here by your representative, and I find it very satisfactory, having a hard surface which will stand a great deal of work before it will give way in using the water and the bristle brush combined. It takes the wash well also.

If the paper which is called the *Unbleached Arnold* is up to this sample, it should fill every requirement.

Yours very truly,

(Signed)

HENRY B. SNELL.
